

Ultimate Defense Against Basement Water Damage

iBasement Pro is an advanced sump pump controller that automatically checks and monitors your sump pump system. With iBasement Pro, you can rest assured that your basement will be safe from water damage.

"It's like having a Service Technician a box"

→ BASEMENT FLOODING

Are you tired of constantly worrying about basement flooding and the potential damage it can cause to your valuable possessions?

→ SUMP PUMP FAILURE

Have you ever experienced the stress and frustration of a sump pump system failure, leaving your basement vulnerable to water damage?

→ POWER LOSS

Do power outages make you anxious about the functionality of your sump pump system and the safety of your basement?

WHY CHOOSE iBasement Pro?

iBasement Pro is the ultimate solution to address these concerns and provide you with peace of mind.

With its advanced features and intelligent monitoring capabilities, iBasement Pro ensures unmatched protection against basement flooding.

By automatically checking and controlling your sump pump system, iBasement Pro keeps your basement dry and secure, even during power outages.

Say goodbye to worries about water damage and welcome a worry-free living environment with the cutting-edge technology.

24/7 CHECKS & MONITORING

At its core, iBasement Pro is an advanced sump pump controller that automatically checks and monitors your sump pump system. Equipped with a range of key features, iBasement Pro ensures high water detection and alerts, precise sump pump control, system diagnostics, battery backup status, and monitoring capabilities with text and email alerts.

TAKES ACTION

iBasement Pro acts as your reliable and vigilant companion, reducing the risk of flooded basements caused by sump pump system failures. It takes immediate action when it senses failure or detects unfavorable conditions. Rest assured, iBasement Pro will send smart alerts to your email, text, and app, keeping you informed and ready to address any issues promptly.

USER FRIENDLY

Discover the power of iBasement Pro and unlock effortless basement management. Our user-friendly mobile app allows you to effortlessly monitor and manage your basement, putting you in control with just a few taps on your smartphone. Gone are the days of worrying about flooding and the potential damage it can cause to your valuable possessions.

"Thanks to iBasement Pro, our family no longer has to stress about our sump pump not working during heavy rainstorms. The iBasement Pro Sump Pump Controller has given us peace of mind and confidence that our home is protected from potential floods."
